PRODUCT NOTICE

September 6, 2023

DISCONTINUING LEGACY REPAIR KITS FOR REGULATORS

This product notice is to inform you that we will be discontinuing legacy repair kits for regulators on 11/1/2023.

We are already seeing a successful transition at our stores since rolling out the master kits earlier this year.*

Stores will continue to see new master kit inventory as original legacy kit inventory sells.

*See Previous Notice: New Master Kits for Regulators (https://kimray.com/training/product-notice-new-master-kits-regulators).
