

## MXA UPGRADED TO MXC

In accordance with our mission to make a difference in the lives of those we serve, we continually use customer feedback to make strategic improvements to our products.

**This notice is to inform you that we have made the following updates to the E-LO Electric Low Pressure Control Valve:**

- Added a leak articulation plug that will detect a leak of 6 psi
- It is now Hazardous Location Certified (CSA)

The new product code will be MXC, and the MXC will take the place of the MXA in the future.
