

DELRIN CAGE SUBSTITUTION

This product notice is to inform you that we will temporarily be substituting Z-PEX-Coated Ductile Iron Cages for Delrin Cages

Due to a supply shortage of Delrin, we will be temporarily assembling all new 2" and 3" Diaphragm-Balanced Lever-Operated Dump Valves and Diaphragm-Balanced Pneumatically Operated Dump Valves with ductile iron cages coated with Z-PEX* corrosion-resistant coating instead of the standard Delrin cages. (*This may be shown as "KC" on Kimray codes.)

3" Substitution

- Effective Date: 06/07/21
- First S/N Assembled: 2211580571

2" Substitution

- Effective Date: 7/12/21
- First S/N Assembled: TBA

Piston Balanced and Piston Balanced Throttling valves will not be affected as they do not contain Delrin standard.

We anticipate no delays in shipments as a result of this change, and there will be no change in price for any of these products. The Z-PEX-coated cages should perform as good as or better than the Delrin cages. You can learn more about Z-PEX here.

Based on the current information from our suppliers, we estimate that we will be able to start using Delrin again in Q4 2021.

Each product with this substitution will be clearly marked on the box and product tag.

List of codes for the affected 3" products:

305DEL to 305KC as of 06/07/2021 to 09/07/2021
