

BLANCETT PRICING UPDATE

This notice is to inform you that all Blancett (Badger Meter) products will receive a price increase of 3-5%, beginning March 2, 2026.

Blancett, manufacturer of our Flow Measurement series of products, has informed us that as a part of their annual processes, their prices will be increased approximately 3-5%, depending on product.

Note that if your project has already been quoted, we will honor that pricing until expiration, whether or not it delivers by or after March 2, 2026. New pricing will be effectively immediately on all new orders placed that ship after March 2, 2026.

Please contact us for info on the adjustments or if you have any questions.
